Subject: Orange County Water District VOC Contamination Site Discovery under the Grant

Hi John – as a follow up to the Orange County Water District meeting with EPA focused on finding sources to their VOC problem, I looked at Envirostor and CERCLIS. Using the generic names of Northrup and Arnold (engineering) I found that neither site meeting the description was screened under the grant for our work supporting Orange County in the past and also see the in Envirostor, the sites roughly meeting the name description are essentially RCRA tiered permit sites. As you know, OCWD is interested in us possibly doing a PA at the subject sites – can you tell me if perhaps we reviewed these sites under a slightly different name and/or if the screens just did not get into Envirostor?

Thanks Matt

Sites with similar names in Orange County as found in Envirostor – neither had site screens under the grant
